Address

Noble Park, Victoria, Australia

Experienced Front-End Developer with over 10 years in software development, specializing in building dynamic web applications using **React.js, NextJS, ExpressJs, Gatsby.js, and JavaScript/TypeScript**. Proficient in both front-end and back-end technologies, including **Angular, Vue.js, .NET, Node.js**, and various databases.

TECHNICAL SKILLS

More than 10 years' experience in Software Engineering and Web development.

Programming: JavaScript, Typescript, HTML, CSS, C#.

Front-End Development: React.js, Next.js, Gatsby, Angular, Vue.js, jQuery, Tailwindcss, Bootstrap

Back-End Development: Node.js, Express.js, .NET, NestJS, GraphQL

Database: MySQL, PostgreSQL, MS-SQL

DevOps/Deployment: AWS, Vercel, Netlify, DigitalOcean

Other: WordPress, Headless CMS (Sanity, DatoCMS, Kontent)

EMPLOYMENT

Anacle, (remote contractor) Singapore

May 2024 – Now

Full Stack Node.js Developer

- **Primary Responsibilities:**

- Developing and maintaining full-stack applications using Node.js, React.js, and PostgreSQL.
- Leading the migration of legacy systems to modern web frameworks, enhancing performance and scalability.

- **Key Contributions:**

- Successfully converted the Simplicity website to Next.js and Sanity Headless CMS.
- Collaborated with cross-functional teams to maintain the Anacle Partner Website and Tesseract product site, ensuring seamless functionality and user experience.

Inlight, Australia

Sep 2022 – May 2024

Full Stack Node.js Developer

- **Primary Responsibilities:**
 - Implemented full-stack solutions for various clients, using React.js/NextJS for the front end and Express.js for the back end.
 - Deployed and maintained applications on AWS, optimizing cloud infrastructure for efficiency.
- **Key Contributions:**
 - Developed both front-end and back-end components for projects like Nandos and AHM, integrating with systems like Civica Ensure and Sanity CMS.
 - Built Urban Rest's website using Next.js and integrating Stripe for payments.

Our Very Own (Bound), Australia

Jan 2021 to Sep 2022

Front-End Developer (Casual Job)

- **Responsibilities:**
 - Developed and maintained front-end components using React.js, Next.js, and Gatsby.js for client websites.
 - Ensured that applications were responsive and compatible across various devices and browsers.
- **Contributions:**
 - Worked on the A2Milk website, implementing server-side rendering with Next.js and optimizing search functionality with Algolia.
 - Contributed to the redesign of KidsFirst's website using Gatsby.js, improving site speed and overall user experience.

NashTech, Vietnam

Dec 2009 to Jan 2020

Senior Front-End Software Engineer

- **Responsibilities:**
 - Developed and maintained front-end applications using AngularJS, React.js, and jQuery.
 - Collaborated with design teams to implement user-friendly interfaces.
- **Contributions:**

- Helped modernize legacy applications by transitioning from AngularJS to React.js, simplifying the codebase and improving performance.
- Assisted in mentoring junior developers, contributing to a collaborative team environment.

Pyramid Consulting, Vietnam

2007 to 2009

.NET Software Engineer

- **Responsibilities:**
 - Developed web applications using ASP.NET MVC, C#, and jQuery.
 - Gathered client requirements and translated them into technical solutions.
- **Contributions:**
 - Delivered projects within tight deadlines, leading to high client satisfaction and repeat business.
 - Developed reusable components in ASP.NET, streamlining future development processes.

TMA Solution, Vietnam

2006 to 2007

.NET Software Engineer

- **Responsibilities:**
 - Developed web applications using ASP.NET and MS SQL, focusing on performance and scalability.
 - Assisted in the design and development of user interfaces.
- **Contributions:**
 - Supported the successful launch of a client's CMS platform, improving content management processes.
 - Provided ongoing technical support and troubleshooting, ensuring application stability.

PROJECTS

Anacle Singapore (Remote contractor)

May 2024 to Now

- Website: <https://www.anacle.com.au/>, <https://tesseract.anacle.com/>, <https://channels.anacle.com/>, <https://anaclesimplicity.com/>,
- Maintained and enhanced Anacle Singapore, Anacle AU, Anacle Partners website and Tesseract product site. Converted the Simplicity website from **WordPress** to **Next.js**, improving load times and overall performance.

Nandos (Inlight)

Jan 2024 to May 2024

- Website: <https://www.nandos.com.au/>

- Developed the front-end using **React.js** and back-end using **Express.js** for the Nandos website. Contributed to the Nandos mobile app development with **React Native** and deployed the solution on AWS.

AHM (Inlight)

May 2023 to Dec 2023

- Website: <https://www.ahm.com.au>
- Built and maintained the UI with **React.js** and the back end with **Express.js**. Integrated the Civica Ensure system for data storage and utilized **Next.js** for the marketing website, sourcing content from **Sanity** headless CMS.

Urban Rest website (Inlight)

Jan 2023 to May 2023

- Website: <https://www.stayurbanrest.com/>
- Developed a full stack booking platform using **Next.js**, with **Stripe** for payment processing and **Algolia** for search functionality. Hosted the platform on **Vercel** and managed content through **DatoCMS**.

OES Students portal (Inlight)

Sep 2022 to Dec 2022

- Mockup link: <https://oes-demo.vercel.app/>
- Created a responsive student portal using **React.js** for the front end and **Express.js** for the back end. Deployed the application on **AWS**, ensuring high availability and scalability.

A2Milk (Bound)

Sep 2021 to Sep 2022

- Website: <https://www.a2milk.com.au/>
- Developed a server-side rendered website using **Next.js**, integrating **Algolia** for advanced search. Managed content using **Kontent.ai** Headless CMS.

Lastfootprint (German startup – side project)

Sep 2020 to 2022

- Website: <https://www.lastfootprint.com/>
- Developed Business Intelligence (BI) software for energy performance visibility using **React.js** with **Recoil** for state management, and **Nest.js** with **Prisma** for the back end. Managed data in a PostgreSQL database.

KidsFirst(Our Very Own)

Jan 2021 to Jun 2021

- Website: <https://www.kidsfirstaustralia.org.au/>
- Rebuilt the KidsFirst website with **Gatsby.js** for improved speed and performance. Leveraged **Gatsby.js**, **Bootstrap**, and **Drupal** (headless Cms) for a modern, user-friendly interface

My Portfolio website, side project

June 2020 to July 2020

- Website: <https://tannguyenle-portfolio.vercel.app/>
- GitHub: <https://github.com/nguyenletan/tannguyenle-portfolio/>

- Created a personal portfolio website using NextJs, and Tailwindcss, showcasing my skills and projects in web development.

August Demo, side project

27 July 2020

- Website: <https://august-demo.netlify.app>
- GitHub: <https://github.com/nguyenletan/august>
- Developed a demo project replicating the August homepage using React, Bootstrap, and Styled Components to demonstrate front-end skills.

Edvisor.io

Feb 2019 to Jan 2020

- Website: <https://www.edvisor.io/>
- Contributed to the Edvisor for Schools platform, focusing on the enrollment feature and fixing legacy UI bugs. Utilized AngularJS, GraphQL, and Node.js for development.

iVisas

Dec 2018 to July 2020

- GitHub: <https://github.com/nguyenletan/iVisas>
- Created a demo project for verifiable claims using Vue.js, Vuesax, Node.js, and PostgreSQL, focusing on implementing all UI screens.

Civica Housing

Dec 2011 to Dec 2017

- Developed Civica Housing project using ASP.NET MVC, jQuery, and KendoUI, supporting data management through MS-SQL.

Vielife

May 2007 to Dec 2010

- Worked on a wellness platform focusing on sleep, stress management, nutrition, and physical activity. Collaborated with cross-functional teams to develop, deploy, and troubleshoot various legacy bugs using ASP.NET MVC, jQuery, and KendoUI.

Marqui CMS

May 2006 to May 2007

- Contributed to the development of a web content management platform for multi-site organizations, using ASP.NET Webform, HTML, CSS, and jQuery to build user-friendly interfaces.

EDUCATION

BS

University of Science - Ho Chi Minh City - Vietnam
Software Engineering
Graduated with a CGPA of 8.02 / 10 (UGC 10-point system)

Feb 2006
